REASONS FOR ALLOWANCE

1. Claims 1 and 22-28 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The aforementioned claims are allowable over the Cited Prior Art (CPA), Holloway et al. (U.S. Patent 5,805,801) in view of Sofer et al. (U.S. Patent 5,489,896) in further in view of Sherer (U.S. Patent 5,935,245), because the CPA does not explicitly teach nor disclose all the limitations of the independent claims 1, 22, 25, 26, and the subsequent dependent claims.
4. The CPA fails to teach or render obvious detecting in an address table, access vectors corresponding to MAC destination and source address, wherein the access vectors are stored in address tables and indicate whether two nodes, corresponding to a MAC source and a MAC destination address, may access each other. Access vectors are defined in the specification as a bit vector which determines if two nodes can access each other, and this interpretation has been used in determining the allowability of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
